

Epson EB-1776W

DATASHEET / BROCHURE

A top-of-the-range, ultra-mobile, wireless WXGA projector for business users, combining superb image quality, brightness and simple set-up with a range of Easy MP features

Perfect for presenters travelling to meetings, this WXGA projector offers a winning combination of slimline design, functionality, image quality and brightness. With built-in wireless, straightforward and fast set-up plus a wide range of inclusive Easy MP features, this is the ideal tool for polished presentations.

Ultra-mobile, extra-flat: Presenting on the move has never been easier, thanks to the lightweight design. Weighing just 1.7kg, this is the ideal projector for anyone travelling to meetings.

Go wireless: With inclusive high-speed Wi-Fi functionality, setting up a presentation is a smooth, simple process minus the bother of cables.

Enhance your presentation: Once connected, presentations can be controlled and improved with a host of Easy MP features including; 3-in-1 USB display - compatible with Macs as well as PCs, USB plug and play flash drive and multi-screen display where users can connect up to four projectors from a single computer.

Get a wider picture: See more of the presentation with the WXGA resolution. Ideally suited to spreadsheets and data, audiences will see everything displayed on a widescreen computer as this format offers 30% more pixels than XGA.

First-class picture quality: Audiences will enjoy perfect picture quality, impressive natural colours and brightness of 3,000 lumens white and Colour Light Output (CLO), thanks to Epson's 3LCD technology.

Speedy start-up: Simple to set up with features such as quick-start and instant-off.

Straighten up: Slides and images can be aligned and distortion corrected with the projector's automatic vertical and horizontal keystone correction. Projected images fit into any projection screen with a black frame with the Screen Fit function, exclusive to the EB-1776W. And with no placement constraint, you can set up the projector anywhere (not exactly anywhere) in the room and your image will be automatically adjusted to fit the screen.

KEY FEATURES

- Project in daylight - 3,000 lumens white and CLO
- Ultra-mobile design - Weighs just 1.7kg
- Wide screen - WXGA widescreen resolution
- Align and adjust - Exclusive Screen Fit function
- 3-in-1 USB display - Manages image, sound and remote
