

# Business accessories for the SMART Board™ interactive whiteboard and display

Enhance the flexibility of your SMART products with our line of time-saving, value-added accessories. With SMART accessories, you can fine-tune your interactive technology to meet the unique needs of your organization.

## Accessories for the SMART Board interactive whiteboard

### Height-adjustable wall mount

Find the perfect position with the SMART Height-Adjustable Wall Mount, which enables quick, simple height adjustment of SMART Board interactive whiteboard systems and helps improve sightlines, accommodate seated users, users of different heights and users with physical restrictions.

### SMART Board interactive whiteboard speakers

Add audio to your SMART Board 600 series interactive whiteboard or your SMART Board 680i or 685ix interactive whiteboard system with two 14-watt, stereo-amplified speakers that provide a comfortable listening volume in rooms up to 1,000 sq. ft.

### Projector retrofit kits

Transform your SMART Board interactive whiteboard into a SMART Board 680i or 685ix interactive whiteboard system – one of our powerful, all-in-one technology solutions – by adding a projector retrofit kit. The kit includes a SMART projector and an extended control panel that integrates with your SMART Board interactive whiteboard, so powering up is fast and simple. The system features USB connections for more computers or audiovisual devices, and enables easy switching between input devices. Compatible retrofit kits are available for 560, 580, 660, 680 and 685 model SMART Board interactive whiteboards.

### Mobile floor stand

Move your SMART Board interactive whiteboard or interactive whiteboard system between meeting or training rooms with a mobile floor stand. It's ideal for areas where space is limited or where mounting the SMART Board interactive whiteboard to the wall is not feasible.

### Wireless Bluetooth® connection

Connect your computer and your SMART Board interactive whiteboard wirelessly.

### RS232 module

Convert your USB connection into a serial connection with our RS232 module.

### Replacement projector lamps

Available for SMART UF55, UF55w and UX60 projectors.

### Replacement pens and erasers

Pens are available in packs of four. Erasers are sold separately.

## Accessories for the SMART Board interactive display

### **SMART Mobile Stand for interactive displays**

Add mobility to your SMART Board interactive display with a height-adjustable mobile stand that includes integrated speakers, a locking cabinet, casters that swivel and lock, and a cabling and power distribution system for the display and connected peripherals.

### **Laptop shelf**

Save meeting room space with the laptop shelf for the SMART Mobile Stand for interactive displays, which can mount on either side of your mobile stand. The shelf features an adjustable tilt angle and telescopes outward to accommodate interactive displays of different sizes.

### **Rack mount kit**

Mount up to four shelves to store your peripherals inside the cabinet of your SMART Mobile Stand for interactive displays.

### **Pencil packs and replacement nibs**

Get additional pencil tools for your SMART Board interactive display, or replace worn nibs to prevent damage to your flat panel display.

## Other SMART accessories

### **GoWire™ SMART Notebook™ software auto-launch cable**

Get full access to SMART Notebook collaborative learning software tools and features with this USB cable that launches the software automatically, so you don't have to install SMART Notebook software on your computer.

### **USB extenders**

Increase the distance between your SMART Board interactive whiteboard or display and your computer's USB connection by up to 120' (36.6 m).
